

AUSAF LIAQUAT

Software Engineer specializing in Backend Development

+92-340-8305607 | ausafiaquat1@gmail.com | [LinkedIn Profile](#) | [GitHub Profile](#) | Karachi, Pakistan

PROFESSIONAL SUMMARY

Full-stack software engineer with 4+ years of experience building scalable web applications using PHP, Laravel, and Vue.js. Proven track record in developing RESTful APIs, optimizing database performance, and delivering mobile-responsive solutions. Strong background in MVC architecture, object-oriented programming, and agile development methodologies.

TECHNICAL SKILLS

Languages: PHP, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries: Laravel, CodeIgniter, Django, React, Vue.js, NodeJs, Tailwind CSS

Databases: MySQL, PostgreSQL, MongoDB, Redis

Tools & Technologies: Git, RESTful APIs, Docker, Composer, npm, Webpack, Linux

Practices: OOP, MVC Architecture, Agile/Scrum, Test-Driven Development, CI/CD, Code Review

PROFESSIONAL EXPERIENCE

Senior Laravel Developer

October 2024 – Present

Horizon Tech

Karachi, Pakistan

- Lead development of enterprise-level web applications serving 50,000+ users, implementing scalable Laravel backend architecture and optimizing database queries for 40% performance improvement
- Architect and develop RESTful APIs consumed by Vue.js frontend and mobile applications, ensuring secure authentication and data validation
- Mentor junior developers through code reviews, pair programming sessions, and establishing coding standards that reduced bug reports by 30%
- Collaborate with cross-functional teams to design database schemas, implement caching strategies using Redis, and optimize application performance

Laravel Developer

May 2022 – October 2024

Horizon Tech

Karachi, Pakistan

- Developed and maintained 15+ full-stack web applications using Laravel, Vue.js, and MySQL with focus on clean code and maintainability
- Implemented responsive UI components and integrated third-party APIs for payment gateways, SMS services, and email notifications
- Built automated testing suites using PHPUnit, improving code coverage to 75% and reducing production bugs
- Optimized database queries and implemented database indexing strategies, reducing page load times by 50%

Backend Developer

March 2021 – April 2022

WebPedia Technologies

Karachi, Pakistan

- Designed and developed robust backend systems using Laravel and CodeIgniter, handling complex business logic and data processing
- Created RESTful APIs for mobile applications with comprehensive documentation, enabling seamless frontend-backend integration
- Implemented authentication and authorization systems using JWT and OAuth2, ensuring secure user access control
- Collaborated with frontend developers to integrate Vue.js components with Laravel backend, delivering cohesive user experiences

Laravel Developer

September 2020 – January 2021

Codiansoft

Karachi, Pakistan

- Developed dynamic web applications using Laravel framework, focusing on MVC architecture and best practices
- Integrated MySQL databases with complex relationships and wrote optimized queries for data retrieval and manipulation
- Participated in agile development cycles, contributing to sprint planning, daily standups, and retrospectives

EDUCATION

Sindh Madressatul Islam University

Bachelor of Science in Computer Science

Karachi, Pakistan

2017 – 2021

St. Patrick's College

Intermediate in Computer Science

Karachi, Pakistan

2014 – 2016

KEY ACHIEVEMENTS

- Promoted to Senior Laravel Developer within 2 years based on technical excellence and leadership capabilities
- Reduced application response time by 60% through strategic caching implementation and query optimization
- Successfully delivered 20+ projects on time with zero critical production issues in the last 12 months
